Wednesday, March 2, 1983

These three young ladies competed in the Royal Canadian Legion's Branch 129, second annual county public-speaking festival representing Archie Stouffer Elementary School. On either side of Stephanie O'Brien, fourth in the senior division, are left, Mairead Cavanagh, second in the Junior division, and the younger division winner, Dianne Garbutt. Dianne takes her speech on figure skater Don Jackson to the zone finals in Fenelon Falls, March 6. Absent from photo is Tom MacLeod who garnered second place in the senior division.

Pergolas queries Kenney's assessment of Chamber

Councillor Gary Kenney and deputy reeve Ed Pergolas had a brief discussion during Anson, Hindon and Minden's council meeting concerning Kenney's written submission on the shortcomings of the Haliburton Highlands Chamber of Commerce.

Pergolas said the remarks made by Kenney in his memo, a document county representatives Pergolas and reeve Lyle McKnight were going to introduce to county council, were questionable as to how "factual" they were. "The report left everything as a hearsay matter," Pergolas said during an interview Tuesday. He said the brief was not presented to county council because there were "too many things to check on it."

Kenney defended his memo saying he did not try to put it

forward as anything but his opinion. "I take issue with your comment," he said to Pergolas. He said the informal report was requested.

"I'll choose my words very carefully," Pergolas said of future requests.

"Well, perhaps you should," responded Kenney.

While Pergolas says the

chamber has a good board, he is still interested in examining the value of the Chamber. "If we have any comments we'll give them to them" during the scheduled March 10 meeting between the municipality and Chamber representatives. "Some may be valid, some may not be valid" but "then it's up to them (the Chamber) to sift through them (the suggestions) like in any business."

On Tuesday, Kenney restated his lack of confidence in the dependency of the Chamber on county funds and the uses to which this money is put. He added he became interested in the Chamber's practices about six months ago and said as an issue it is "very important. It was one of my own personal reasons for getting myself into politics."

Pergolas concluded that for "anything presented to county, we have county representatives. We should have an opportunity to go over it"

before county council is informed, Pergolas said referring to newspaper reports which county council members had access to before the matter was formally introduced by Anson, Hindon and Minden's representatives.

Hospitality training centre receives federal funding

The Haliburton County Training Centre is about to become a reality.

It was announced this week that the organization had received the necessary funding and approval to proceed. The centre has been in the planning stages for over a year.

The centre is being funded through the federal government's Local Employment Assistance Program (LEAP.)

According to the press release distributed last week,

the centre will train individuals in the hospitality industry for such positions as bartender, waitress or waiter and resort maintenance. Two courses per year are planned with a short training course also being provided for managers of the resorts.

Much of the program being provided at the centre has been designed and laid out in response to interviews with

resort owners and potential staff members. During the investigative portion of the planning, the co-ordinator, Susan Horne, met with the centre's steering committee, managers in the resort trade and students who may wish to attend. From these discussions, a program evolved which is expected to see

Two groups charged in break-ins

Three Michigan youths charged for a break and enter spree on Coleman Lake in Guilford Township, were arrested by police Friday afternoon on a twist of luck.

The three youths charged for the break-ins, Robert Glenn Kiser, 18, of Canton, Michigan, Bradley Carlyle Faulkner, 17, of Plymouth, Michigan, and Spencer Edward Wagner, 18, also of Plymouth were driving through Minden Township when Constable Mike Smith noticed the muffler hanging low. He pulled the vehicle over for a routine mechanical

fitness check and noticed the car was packed with numerous items including fishing gear, clothing and firearms.

Constable Smith's check on the three youths disclosed them as bail violators from Michigan. They had been

arrested in the state for break and enter.

Smith, assisted at this point by Constables Wim Magee and Mike Maher discovered the Michigan car was loaded with items from 18 cottages and five out-buildings on Coleman Lake.

The three have been charged with 23 break-ins and possession of stolen property. They have also been charged with the theft of five snowmobiles in the area, three of which were extensively damaged.

In another break and enter February 26 six Scarborough youths have been charged. The occurrence, on Davis

Lake in Lutterworth township, involved the cottage of one of the youths' father. Neighbours, believing the cottage was to stay vacant

until spring, phoned police. Constable Bob Wood arrived

on the scene.

The six were without heat or cooking facilities and they have been charged with entering a neighbouring cottage where it is alleged they stole an electric heater and cooked breakfast.

Charged with the occurrence are: Pietre Santocono, 18, Vito Gandolfo, 19, Salvatore Vella, 19, Paul Distefano, 20, Mario Perri, 19, and Salvatore Leo, 19, all of Scarborough.

February weather

by Phil Graham

	C	F
Average high	.5	33
Average low	-11	12.2
Average for month	-5.2	22.6
Average for last Feb.	-10.1	13.8

Total snowfall to Feb. 28	136 cm	53 in.
Days with snow or rain	4	
Days sunny or mostly sunny	18	
Days with freezing rain	1	

February was a very mild, pleasant month much above normal average temperature. Much below average snow and rain. The sad, waterless condition of Gull River is due to all dams having been closed off to the north.

Housing program to be explained

Residents of three municipalities on the western side of Haliburton County will have an opportunity to take advantage of a federal sponsored housing program. The program is promoted as a method where those of modest income can finance the purchase of a home.

A special meeting has been planned for next Tuesday evening to explain the Rural and Native Housing Program

The meeting is open to residents of Anson, Hindon and Minden, Lutterworth and Stanhope townships.

The program is designed to serve communities with a population of 2500 or less. Under the terms of the assistance, repayment of mortgages to the program is based on an individual's income. A sliding scale is used, taking into consideration the number of

dependents and other factors. The funds can be used to build a new home or rehabilitate an existing residence.

Those qualifying for the program are requested to make a minimum down-payment of \$500 if they have dependents or five percent of the costs if there are no dependents. Monthly repayments are designed to not exceed 25 percent of the home's income.

The program is administered through the federal government's Central Mortgage and Housing

Corporation.

Included in this program is the provision of rental housing for senior citizens and families on a geared-to-income basis.

The Staanworth Housing Authority, which is sponsoring the meeting Tuesday, will compile a list of interested applicants from individuals in the municipality. Officials from the ministries involved in this project will be on hand Tuesday evening to answer questions. The meeting will begin at 7:30 p.m. at the Minden Community Centre.

Training Centre

(from page one)

fifteen to twenty students graduate each spring and winter.

It is projected that the first class will begin April 4.

The centre will be located in Haliburton, above the Red and White store.

Support for the centre was received from representatives of the resort and restaurant trade, the Board of Education, Manpower Outreach centre, Sir Sanford Fleming College and the Chamber of Commerce.

The funding which has been received from the federal

government will cover the first year's operation. "By the end of that time, the success of that project will be reviewed and hopefully be given a continuing commitment of three years at a time," the press release noted. "This is a pilot project. If it is successful here, it will be duplicated in other areas."

The press release concludes, "The hospitality industry and the working people of Haliburton County will most certainly benefit first by being able to boast of some of the best qualified personnel in the industry."

Township applies for youth project

Anson, Hindon and Minden's application for Katimivik has been completed and mailed paving the way for the youth to work on local improvement projects.

Councillor Pat Burk acknowledged councillor Gary Kenney's input in preparing the application, then outlined the proposed project to date for the February 24 meeting of Anson, Hindon & Minden council.

The municipality has applied in time for the July 1983 date. The nine month program would end in March 1984 after a series of three rotations of groups of up to 11

members visited the community. Burk said a check with the municipality's insurance company revealed the policy would adequately cover the program.

The projects, designed not to take work away from residents, include two jobs at the museum. The museum is to be renovated and museum articles will be catalogued for

display. Katimivik members will subsequently set up displays in the museum, which means the museum could be operational by next summer.

Another community facility, the arena, may receive a facelift through the project. Participants in the youth program will paint the interior of the building and will also be instructed in icemaking and arena management.

The remaining projects are outdoors. They include general parkland improvement, nature trails, and the "rehabilitation" of Beaver Creek to permit access by canoes.

The group has already received an offer of the required large house from local business man Ron Gambell. Burk also revealed that she had received two offers to billet Katimivik participants for two weeks in private homes. An element of the program designed to introduce the visitors, first-hand, to local residents.

Planning group to meet March 3

Anson, Hindon and Minden's first planning committee meeting was the forum for Deputy Reeve Ed Pergolas' announcement that the Ministry of Housing will be present at the next council

meeting and council "will be setting the official plan in motion."

"We will be marking out, with their help, terms of reference, the ground rules for the official plan," said Pergolas, contacted Tuesday morning.

Pergolas said after the assent from the Ministry of Housing the municipality can begin to "interview consultants and pick one good for the municipality."

The official plan will take the same route as a bylaw, including publishing and

distributing said Pergolas. However, "the ministry is always there to give a hand on anything controversial."

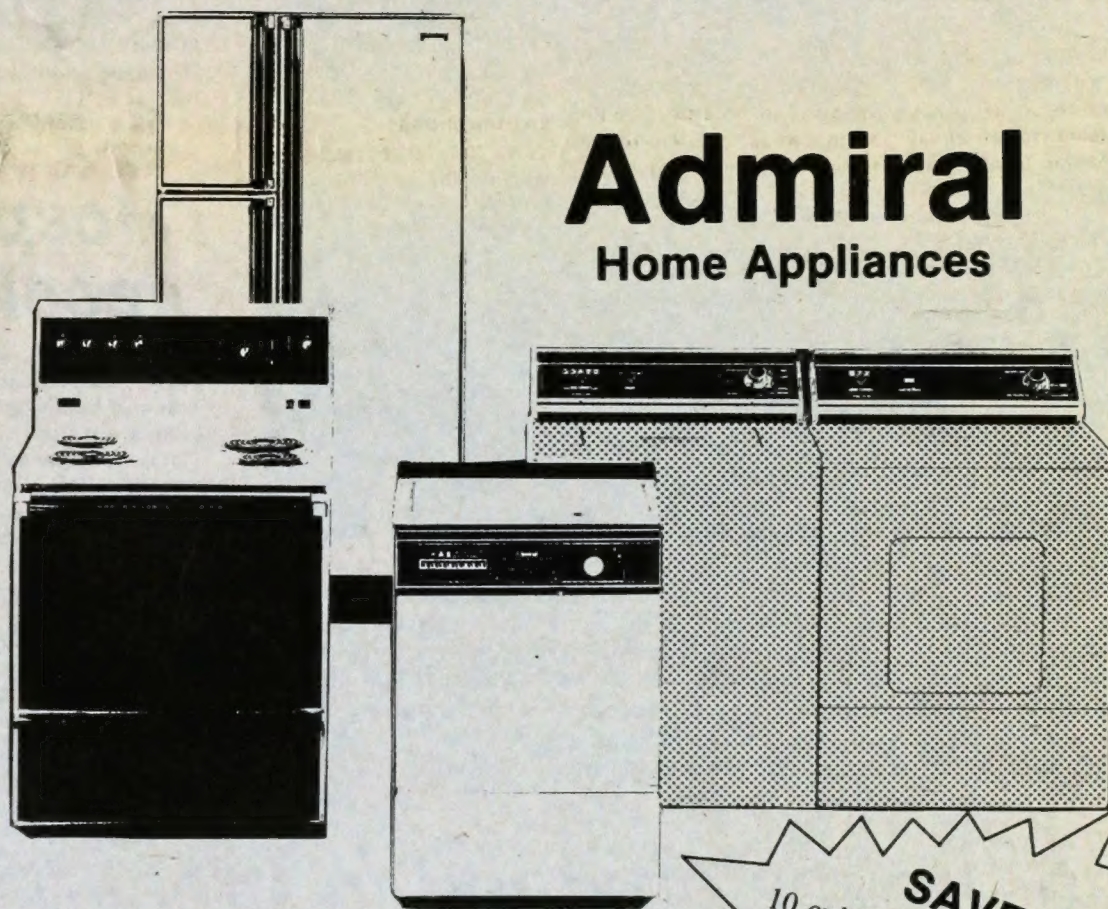

The municipality is "in a good position" with the proposed plan because "about 40% of the preliminary work" has been done on by-law 82-11, the previous zoning by-law now awaiting a hearing at the Ontario Municipal Board. (OMB).

Members on the planning committee are: deputy reeve Ed Pergolas, councillor Pat Burk, clerk-administrator Elinor Burke, by-law

enforcement officer Dick Schell and citizen representatives Morgan Loucks, Don Hall and Dean Elliott. Reeve Lyle McKnight is an ex-officio member on all committees.

Apartment proposal receives tentative okay

An application to change a number of commercial facilities into apartments has received tentative approval from the Anson, Hindon and Minden Township council. The approval came at the February 24 meeting of the council.

Property owner Len Box attended the meeting to explain the proposal. The owner of a building on St. Germain Street, opposite the Brewers Retail store, told the council that he has experienced difficulty renting the lower portion of his building to commercial establishments. He noted, however, that he had received numerous enquiries about apartment rentals.

"There is definitely a need for more apartment units in this community," Box told the council. He pointed out that the building already has two apartments on the second floor.

His plan, as outlined to the council, would see the lower portion of the building

divided into three self-contained apartments. The change in status would require an amendment to the present zoning provisions from the General Commercial zone to Residential.

He noted there would be interior modifications to make the commercial areas suitable for apartments and a small addition would be made to the back of the building.

It was suggested that the zoning change would be expedited if the owner explained his plans to the property owners near the building. Box said he did not anticipate there would be objections to the change.

The council was informed that the apartments would have sufficient area to meet the municipality's requirements and that enough parking existed to accommodate the tenants in the revamped building.

Deputy Reeve Ed Pergolas noted the change would mean a loss of commercial assessment for the municipality, but

he also agreed that the community was short of apartment units.

A question was raised as to whether the rezoning change might run into some opposition from provincial authorities because of the hazard land zoning which is currently under study along the Gull River. This aspect was to be looked into before the formal zoning change was to be presented.

Cars collide

The intersection of Highway 519 and county road six at Eagle Lake in Guilford township was the scene of a two car collision February 25.

Bessie Morrow, 61, of Kashaga Drive in Dysart township, was charged with failing to stop at a stop sign after her 1981 Dodge struck a 1981 Datsun. The Datsun, driven by Lorraine Noonan, 25, of Pine Street, Haliburton, received \$5,000 damage while Morrow's Dodge received \$1,200 damage.

Investigated by PC David Rogers.

A brighter future

The sap has started to flow, the sun's rays are making short work of what little snow a rather abbreviated winter has left behind, one of the mildest winters in recent memory is rapidly fading. With it goes a less than spectacular winter tourist season and one of the roughest starts to a new year many businesses have experienced.

The spring brings with it the promise of better things to come. Those who claim to understand the grand economic picture cautiously predict an upswing, albeit gradual, from what has been a dismal two years.

Those of us who feel powerless in front of the massive economic forces which rule our world watch with mixed feelings, hoping for the best, fearful of the worst.

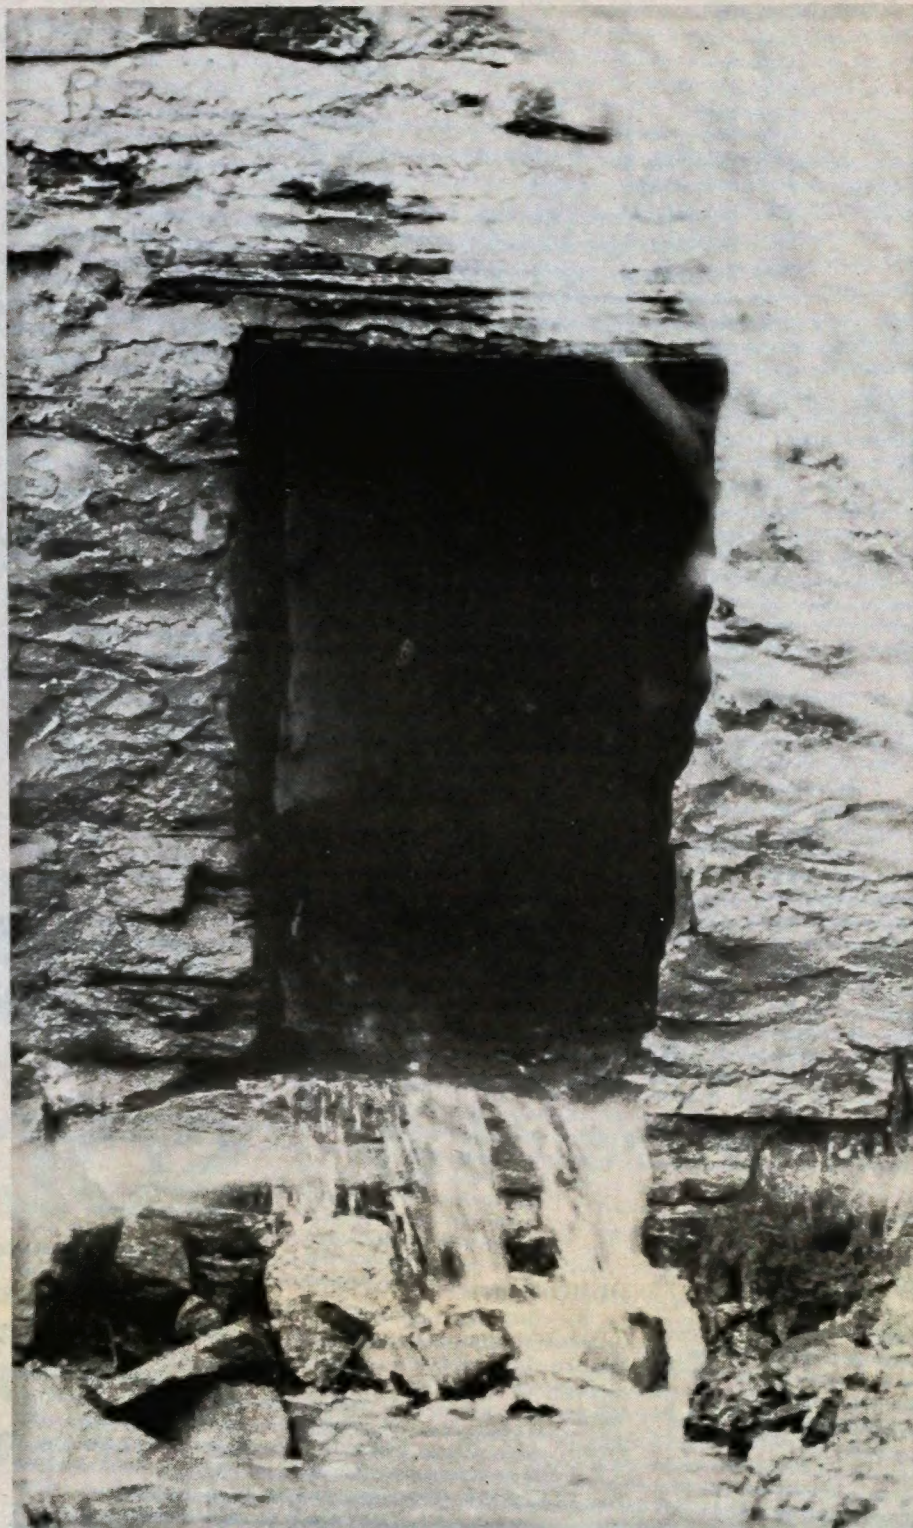

It has been a rough time, but like the seasons, it will pass. We're not about to offer any optimistically charged predictions. Any comment we could make would be mere guesswork. Suffice to say that little was ever gained by wallowing in our misery. Let's step out with a new spring in our step and the confidence that this year will be better than the last.

Express yourself

Readers of The Times are invited to express their opinions on issues of local interest through letters to the editor. The letters to the editor section of the newspaper is one of the most popular forums for the exchange of differing points of view.

It is the policy of The Times that all letters to the editor must appear with the author's name. Only in exceptional circumstances will we allow a letter to appear over a pseudonym. We reserve the right to edit submission for length and will reject letters we feel may lead to legal action.

Letters to the editor can be sent to The Times, Box 97, Minden or left at our office on Main Street just north of the bridge in Minden.

Runoff

Hospital inquiry needed now

- by John Eakins, M.P.P. -

A full Royal Commission enquiry into the 28 suspicious infant deaths at the Hospital for Sick Children is absolutely essential, and both Opposition Parties have demanded that such a commission be established.

Hospital staff, parents of the dead children and the public are "crying out in anguish" for a full disclosure of the facts, said Deputy Liberal Leader Sean Conway. "This world class tragedy ... boggles every mind to which it is exposed". He urged the government to give the hospital the results of the report of the Atlanta Centre for Disease Control, which concluded at least seven of the deaths were murder by deliberate digoxin overdose.

Ontario jobs

The Conference Board of Canada has predicted that Ontario will lose 25,000 jobs by July, in the mining and manufacturing sectors.

Liberal Leader David Peterson called upon the government to make a "state-of-the-economy" statement on the Board's predictions. The Treasurer claimed that the "gloomy" forecast had been overtaken by recent "stunning" growth in the economy, that his planned April budget will reflect the province's economic health,

adding that a drop in interest rates and a "reawakening of production" in the U.S. augur well for Ontario.

Lake Ontario water

According to health officials, small levels of deadly dioxin which have been detected in Lake Ontario

letters

Editor:

On January 12, 1983 you published a letter from a group of family physicians concerning the school immunization clinics being offered by the Haliburton, Kawartha, Pine Ridge District Health Unit. This letter requested that parents withhold permission for immunization with MMR II vaccine until the physicians' letter had been answered.

I am enclosing a copy of the Ministry's response to the physicians and I would ask you to publish it so that the parents may know of our support for the Health Unit program.

Barbara J. Blake
Director,
Public Health Branch

The Haliburton Family
Health Centre Physicians,
Haliburton Family Medical
Centre,
Haliburton, Ontario.

Dear Doctors:

This will acknowledge your letter to the Minister of Health concerning the use of MMR II vaccine for the immunization of children who may not have been vaccinated against one or more of these diseases. The Minister has asked me to respond on his behalf.

The decision made by the Ministry to use this vaccine rather than the single vaccine, is based on recommendations of a Committee consisting of representatives from a number of groups including the Ontario Medical Association, the Canadian College of Family Practice (Ontario Branch) and the Canadian Paediatric Society.

For a number of reasons about 10% of those vaccinated with these vaccines may not be protected. The fact that the majority of cases of measles now being reported are occurring in children who have been vaccinated, serves to illustrate this point.

Although the evidence is insufficient to warrant a costly universal re-immunization program, there are benefits of selective re-immunization, particularly where there is no increased cost or effort involved and where there are no contraindications to the use of Measles, Mumps and Rubella vaccine in individuals immune to one or more of these viruses.

Accordingly, it is our policy to supply MMR II where one or more of these vaccines may be needed. As you are aware, Mumps is available as a single vaccine, however, it is not supplied by the Ministry.

Barbara J. Blake,
M.D., D.P.H.,
Director,
Public Health Branch.

Some local flavour

- by Bill Scott, M.P. -

Rather than dwelling on what is or is not happening in Ottawa this week, I thought I would talk about a few events which have a more local flavour.

First off, I wish to congratulate the Oshawa mixed curling rink skipped by Rick Vessey on their victory in the Ontario Mixed Curling Championship held in Lindsay on the weekend of February 18, 19 and 20. I understand the bonspiel was a great success. Good luck in your bid to win the National Mixed Curling Championship.

On February 11, I had the pleasure of announcing the approval of three New Horizons projects in Victoria - Haliburton. The Bobcaygeon Senior Citizens' Club received \$14,257.00 to complete the renovations to its Senior Citizens' Drop-In Centre and to expand its existing activities. The Burnt River Community Club received \$20,975.00 to equip its new clubroom and kitchen in the community centre for meals, meals - on - wheels, social events, crafts and inter-generational programs. The Woodville Centennial History Committee received \$16,725.00 to help publish a book on the history of Woodville and surrounding area to commemorate its centennial in 1984.

On February 18, I announced the first, of what I hope will be many, approvals of projects in Victoria - Haliburton under the Canada

- Ontario Employment Development Program (NEED). The Township of Galway and Cavendish received tentative approval of their project at a funding level of \$21,972.00. The project will

employ three people for 28 weeks each and is designed to paint and repair existing municipal buildings. The

Township of Chandos received tentative approval of a project at a funding level of \$18,360.00 designed to clear accesses to township roads. The project will employ seven

people for 12 weeks each. These two projects will remove 10 people from the ranks of the Unemployment Insurance exhaustees for a minimum of 12 weeks. I am

sure they will provide a valuable service to the community.

While mentioning innovative ideas, I would like to bring to your attention the efforts of Bill Moore in the Township of Snowdon. He

has brought a new industry, commercial blueberry growing, into our area. I understand he has had the soil tested on the farm he purchased and it is quite adaptable to this use. Officials in the Department of Agriculture inform me that they can foresee this as the start

of a very viable industry. Although wild blueberries have grown in the County of Haliburton for years, this is the first effort in the direction of commercial production that I know of. I hope this is

just the start of a new and vital part of the economy of the County.

Congratulations Bill and take good care of your thousands of plants. I am sure they will be a valuable asset to our community.

If you have shelved plans for expansion or modernization of your existing facilities due to the economic downturn, you'll want to know about the Canada Ontario Employment Development Program.

It's a \$200 million federal-provincial job creation program for private enterprise, non-profit organizations and municipalities. And it's designed to create work for those hardest hit by current economic conditions - men and women who've exhausted their unemployment insurance benefits, or are receiving social assistance. The federal funding for this program comes through the new Employment Expansion and Development (NEED) Program.

FIFTY PERCENT

OR MORE OF TOTAL GROSS PROJECT COSTS. The program may provide 50 percent or more of private sector project costs which will improve productivity, while supporting economic recovery and regional development. Some examples: activities such as underground development in the mining sector, site

preparation in the forestry industry and modernization of plant facilities to increase productivity or to conserve energy.

While giving your business a head-start on the economic turnaround, you'll be giving Canadians an opportunity to re-enter the work force and bring their skills back to productive work.

UP TO \$400 PER
WEEK FOR EVERY JOB
YOU CREATE.

Provided your project meets all criteria, and employs at least three people for a period of twelve weeks to twelve months, we'll pay up to an average of \$400 per week for every new job created. And part of that amount can be applied to material costs and administration expenses as well as wages.

Sound like an interesting proposition? Call now for detailed information and an application form.

For more information call your nearest Canada Employment Centre, Employment Development Branch Office, Ontario Ministry of Industry and Trade Office or Ontario Ministry of Northern Affairs Office.

John Eakins

(from page 4)

waters may not be significant, although environmental groups believe that even almost undetectable quantities are cause for alarm.

The Environment Minister recently announced that the deadly poison had been found in Lake Ontario waters for the first time, although he claimed that the dioxin may have come from the Love Canal and other U.S. chemical dumpsites. In his view, the amounts detected were so small that they could have been from something as simple as an ash escaping from a fireplace and floating into the water (dioxin can be produced by combustion when chlorine, carbon and oxygen are present).

Session ends

The legislative session has ended, and the legislature will resume on April 18th.

The \$200 million job offer.

DEVELOPMENT PROGRAM

Canada Ontario

CANADA ONTARIO EMPLOYMENT DEVELOPMENT PROGRAM
PROGRAMME CANADA ONTARIO DE DEVELOPPEMENT DE L'EMPLOI

Lloyd Axworthy, Minister of Employment and Immigration, Government of Canada. Russell Ramsay, Minister of Labour, Government of Ontario.

from the chamber

by Bob Stinson

Almost 1 1/2 years ago, on September 23, 1981 a committee of the Economic Development Commission, comprised of Rhonda Elstone, Ed Pettinger, Ken Ledgard, (Ministry of Industry and Tourism Consultant) and the writer met with Gary De Dauw, Project Officer for the Local Employment Assistance Program (L.E.A.P.), a Federal Government department of Employment & Immigration. The purpose of the meeting was to hear details from Mr. De Dauw on how L.E.A.P. works and discuss ideas for a possible project in our area.

That evening the idea for a Hospitality Training Centre was conceived. Last week the idea became reality with the director's signature on a contract that ensures the centre's first year of operation. In between that time and this a lot of work has been going on by some very dedicated people to bring it to this stage, and we think they deserve a big pat on the back. The first pat goes to the above mentioned people who thought of the idea, and the second to Gary De Dauw from L.E.A.P. who has worked with all of us from that day to this ... and who will continue to do so.

The idea was then turned over to the Haliburton County Industrial Training Committee who were at that time actively investigating training needs in our County. They in turn set up a committee to specifically deal with this project. The committee was chaired by Barbara Bolin and consisted of Blanche Turner, Kim Emmerson, Joan Ward, John Fitzgerald, Jayne Heppleston, the late Otto Homestead and this writer. In particular Otto Homestead's contribution is significant because of both the valuable input he provided and the considerable effort he had to make to be able to come out to meetings due to his illness. It is a terrible shame Otto did not live to see our dream become a reality.

When the committee developed its application for the development stage it was these volunteers who did all the work. When that stage was approved it was done so with the reservation that a consultant's report must be prepared to verify the statements the committee had made. Funding was then available to hire Dave Grey of D.A.G. Associates and our own Walter Thomas to assist him. They arranged interviews with members of the hospitality industry throughout the County and presented a report that secured the funding to develop the final proposal.

Susan Horne was then hired on a contract to complete this stage and

Dennis Casey as her assistant. Susan has had a very extensive background in life skills training and in developing curricula for specific industries. She and Dennis ran a number of workshop meetings with potential employers in the industry and met with a number of people who are interested in obtaining the training. From the input provided in these meetings and from the committee along with their own considerable knowledge Susan and Dennis have created a detailed proposal for the operational stage that runs over 100 pages.

It was this proposal that was presented to the L.E.A.P. review board last Tuesday, was enthusiastically endorsed by that board and subsequently signed by the director. The committee is not done yet. They have rented a suitable facility (above the Red & White in Haliburton Village) and must now hire an Administrator - Life Skills Coach, teachers and a secretary - bookkeeper. Students must be selected for the first semester and, because of the timing, a slightly shortened version of the course begun in order to graduate the first students for this summer's busy season.

Our community should feel very proud of what has been accomplished by not only all of the people we have mentioned here, but also the many people in the industry who spent time on the interviews and at workshops to ensure that the committee was working on something that would indeed work. This project, we feel sure, will be emulated in other areas once its success is evident here and we can say with a good deal of pride that it started here in the Highlands!

Acid rain concern deepens

The acid rain issue is heating up again with a great deal of concern about the lack of apparent concern by officials in the U.S. Doug Ryan, our CBC correspondent was visiting in the Adirondacks of New York State last week and noted that the lake acidity was at the incredible level of lemon juice in that region and yet the local population did not know what acid rain was. Their government is effectively keeping the public in the dark and our Canadian Coalition on Acid Rain is working hard to reverse that. They deserve our support.

The Canadian Chamber of Commerce and the U.S. Chamber met recently to discuss the issue. The statements made by both organizations were not supportive of those of us concerned with the environment and that shouldn't surprise us too much when you consider it. The major contributing members of both of the

national organizations are also major contributors to the problem.

We should, in fact, point out that we are not members of the Canadian Chamber, we have no input into it, and have no hesitation in disagreeing with them on an issue such as this. We are, on the other hand, members of the Ontario Chamber and will be submitting a "provincial recommendation" in regard to abatement and corrective measures which will be considered at their annual convention in May.

Clinto Lake okay

Clinto Lake in McClintock Township has received a clean bill of health according to a recent survey released by the Ministry of the Environment.

Reporting on studies carried out to determine the level of mercury contamination in the lake, the ministry press release noted that all lake trout between twelve inches and 30 inches in length are uncontaminated by mercury. The metal was the only one for which the latest survey was carried out.

The Ministry of Environment carries out an ongoing testing program throughout Ontario to determine contamination of provincial fishery resources. Regular bulletins are released regarding the ministry's findings. For more information, contact the Minden office of the Ministry of Natural Resources.

Army manoeuvres near Kinmount

A platoon of Canadian soldiers stalked and captured a small band of 'enemy' guerillas which had holed up near Miserable Lake, in the Irondale area, last weekend. Then, after a grueling ten-mile hike to Kinmount, the soldiers sat down with their 'prisoners' and had lunch.

It was all part of a winter combat training session for the men of the Royal Hamilton Light Infantry unit, a militia reserve group from Hamilton, Ontario. The exercise was made to be as realistic as possible, with the men using transport helicopters and armoured transport vehicles dubbed 'Grizzlies' to move into the area.

Using sophisticated radar equipment and reconnaissance, they tracked down their quarry and captured them (with blank ammunition in their rifles and machine guns).

The exercise began early Friday night and ended with the 'capture' on Sunday morning. The troops marched to Kinmount where they (and the enemy) were given a hot lunch by the Kinmount Legion. A display of Armed Forces vehicles and equipment outside the Legion building brought a fair-sized crowd of interested onlookers.

outdoors

by Ron Reid - Federation of Ontario Naturalists

In the summer of 1880, a wealthy New York druggist named Eugene Schieffelon was in the midst of a rather bizarre hobby - importing to North America all the birds mentioned in Shakespeare's plays. That year, he released 60 pairs of European starlings in Central Park. Even though introductions had been tried before in Quebec, Cincinnati, Oregon, and other places, they had always failed. This time, a pair nested almost immediately under the eaves of the Museum of Natural History, and the great starling invasion was on.

Within a few years, starlings had spread across New York and adjacent cities. Within sixty years, the noisy, quarrelsome starlings had spread completely across the continent, including much of southern Canada as well. In the process, this species managed to take over many of the nest holes of flickers, crested flycatchers, and other native birds, and to become one of the major forces in the decline of eastern bluebirds. Yet we still don't really understand why this species thrived when most of the 100 or so introduced exotic birds died out, or why the New York colony of starlings grew when others had failed.

The common glossy blue-back starling with the bright yellow bill that swaggers around your lawn is not the only member of the starling

family to be introduced to this country. The crested myna, or Chinese starling, was introduced to Vancouver about 1897, and its population had reached into the thousands by 1925. While crested mynas can still be found on the west coast, their numbers seem to have declined steadily since then.

Most people hold the autumn flocks of common starlings in low regard,

especially if their noisy roosting area is nearby, but in fact starlings are one of the beneficial insect - eaters that do much to help the farmer. On a late winter day, the incredible assortment of mimicked sounds that makes up a starling's song can also be a welcome reminder of warmer days to come. What other winter bird includes in its repertoire imitations of bobwhite, killdeer, flicker, phoebe, wood peewee, crows, and even cats and dogs, all mixed in with a happy assortment of cackles, squeaks, chirps, and whistles? Can spring be far away?

Several successive sieges on his net failed to faze Home Hardware goaltender Terry Crowe during Home's 5-4 win. The win gave the team a one game lead in the best of five finals against Hartwick Construction.

Home takes first game

Home Hardware has taken a one game lead in the best of five championship play-offs in the Minden Men's Recreational Hockey League. The first game in the series was played Monday evening.

Ted Vasey led the attack for Home netting two goals, both of them unassisted. Other marksmen for the winners were Watson McTeer, Rick Hartwick and Andy Campbell.

Hartwick opened the scoring in the first period of play when John Barkwell connected on a pass from Dave Lee. The two players exchanged honours a few minutes later with Lee scoring on a pass from Barkwell. Andy Campbell put Home on the scoreboard in the first period, scoring on an unassisted effort. However, before the period closed Doug

McNab scored again for Hartwick giving them a three goal lead. Barkwell and Lee picked up the assist on the final tally.

There was no scoring in the second period, and it wasn't until the final frame that Home Hardware managed to

pull the game out of the bag. Two quick goals early in the final period, the first scored by Rick Hartwick from Jim Keetch and Andy Campbell and one by Ted Vasey, unassisted, put the Home team even with Hartwick. Doug McNab pushed Hartwick ahead momentarily, scoring on a pass from John Barkwell and Barry Shaw.

While Hartwick held the scoring edge, it wasn't enough to turn away the Home Hardware attack. Ted Vasey potted the tying goal on another unassisted effort, while Watson McTeer notched the winning marker before the final buzzer. His goal came with the assist of Jim Keetch and John McAdam. Final score 5-4 for Home and a one game lead in the championship series.

Each team was assessed four penalties in the game.

The playoffs continue this Monday evening at the Minden arena with game two between Hartwick Construction and Home Hardware slated for 8:30. Spectators are invited to take in the contest. Admission is free.

Skating contest

The twelfth annual Kawartha - Highlands inter-club figure skating competition will be held in Minden this Sunday. The event is being hosted this year by the Minden Figure Skating Club and will see some 175 skaters from seven clubs participating.

The Kawartha - Highlands Interclub competitions began in Lindsay in 1971. Each year since that time a member club has had their turn to host a competition.

The Minden Figure Skating Club began planning last summer for their turn to host this year's event. The climax for all this planning takes place this Sunday, March 6 at the Minden Community Centre.

Seven clubs will be sending a total of 175 competitors to

the competition. Entrants from Bancroft, Bobcaygeon, Fenelon Falls, Haliburton, Lakefield, Lindsay and Minden will be competing in eighteen different categories.

The day begins at 8 a.m. with figures, free skate solos are scheduled to begin at 10:30 a.m., dances at 5 p.m., and interpretives at 7 p.m. There will be nine judges, a

referee and accountants coming from Bracebridge, Peterborough, Port Carling, Oshawa and Uxbridge. Five local people will judge the interpretive categories. The system of closed marking will be closed for the day's event.

Area residents are invited to come and watch any or all of the day's events. There is a small admission charge of \$1.00.

Jackson rink wins bonspiel

The J.O. Jackson rink claimed top prize in the Carnarvon Electrical Men's Bonspiel held this past weekend at the Minden Curling Club. The rink, claiming to represent the Lochlin Golf and Country Club, won three of their four games to take the top spot.

Members of the winning foursome included skip J.O. Jackson, vice Neil Burk, second Jerry McKelvey, and lead Ken Fielding.

Runners-up in the bonspiel was the rink of Jim Burton out of Minden. His foursome won two of their four games to take second place. Others on the rink included vice Paul Heffer, second Herb Gill and lead John Beachli.

The bonspiel, the first annual, drew teams from Haliburton, Wilberforce, Lakefield and Richmond Hill as well as a strong contingent from Minden. 14 rinks took part.

Prizes and support for the bonspiel were provided by Frontier Motors, Highlands Supply, Ruddy Electric, Prentice Roads, Carnarvon Lumber, Foster's Store and Valiant Hardware, Toronto.

The rink skipped by J.O. Jackson took top honours in the Carnarvon Electrical Bonspiel Saturday. The foursome includes, from the left, vice Neil Burk, skip Jackson, lead Ken Fielding and second Jerry McKelvey.

Seniors enjoy mixed 'spiel

- submitted -

Last week, while we went to press, Minden Senior Curlers hosted 16 rinks to two eight end games in a great competitive and social bonspiel. This event now being sponsored by Red and White (Minden) brought together 2 rinks each from Peterborough, Bobcaygeon, Fenelon Falls, Woodville, and newcomers from Campbellford, plus 3 rinks from Haliburton and 3 from Minden.

Top winner with 39 1/2 points was K. Tribilco of Woodville, skipping one of the best draw rinks seen in years.

Second high point winner with 38 3/4 points, after 2 good wins, was Bill Stanish of Campbellford, visiting Minden for the first time. Bill had Bill Oliver skipping and Wayne Sunter and Sam Scruton on the front end.

Third high points went to Jim Holmes of Haliburton who had an unusual tie game

in his first effort, but came on strong to win 29 1/4 points. Jim had Jack Fleming as vice and Bill Mighton and Doug Sealey as front end.

This bonspiel has become a must for senior curlers in our area. There was fine curling and great sociality making a special day on our curling calendar.

Seniors curling is growing rapidly in all clubs, often being a main factor in holding clubs together. Playing two eight enders instead of three provides time to meet and socialize with old friends.

Haliburton seniors have built a fine mixed club and both Minden and Haliburton clubs have opened their lists and facilities to both ladies and men. Coaching and helping new curlers has brought a new interest and enjoyment to many. These two clubs join in inter-club visits to the benefit of both during curling season. Officers of both clubs can take a bow for a job well done.

Runners-up in the Carnarvon Electrical Bonspiel Saturday was the rink skipped by Jim Burton, second from the right. Other members of the foursome included, from the left, vice skip Paul Heffer, second Herb Gill and lead John Beachli, right.

Juveniles have their backs to the wall in Thornton series

by Dwight Thomas

The defending OMHA Juvenile DD champion Thornton Juveniles have taken a two game lead in the All-Ontario quarter finals following weekend wins of 3-1 and 5-3 over the Minden Monarchs.

Friday evening's opening game saw Thornton build a 2-0 lead before Kevin Warburton hit on a power play goal with just over a minute left in the game.

Scott Rae and Greg Newell picked up the assists. Thornton scored their third goal in the last minute of play for the final 3-1 count.

The Monarchs appeared listless and uninspired after a three week layoff and their play has been described as ranging from poor to horrible.

Colin Newell was sharp in goal for the Monarchs but received mediocre support from his mates.

Minden travelled to Thornton Sunday with one purpose in mind, to even the series. However continued lacklustre play and an absence of aggressiveness in the first two periods handed the hosts their second victory.

The Monarchs continued to exhibit a lack of purpose in their play and despite scoring the first goal, found themselves down 4-2 after the first two frames.

Rob MacLeod opened the scoring three minutes into the game as he converted passes from Scott Rae and Eldon Bull and fired a low shot from the left faceoff circle into the far bottom corner of the net.

The home side, however, scored two goals before Eldon Bull evened the game with just thirty-three seconds left in the opening stanza. Bull converted relays from Rob MacLeod and Tim Wood, blasting a hard shot from the right faceoff circle and picking the lower left corner of the cage.

However, bad became worse, as the Thornton team scored twice in just six seconds to put the game out of reach.

Indeed, there were many times when goalie Terry Crowe must have felt alone against the opposition. On one Minden power play, Crowe faced three Thornton skaters, but he thwarted the unimpeded invaders.

This was generally the

norm as Minden's defence and overall defensive play was subpar. Offensively passes didn't click and scoring thrusts came up empty.

Thornton scored their fifth goal at the start of the final frame but it was all Monarch after that. Unfortunately, the only goal Minden collected was a Scot Hamilton shot from close range. Jim McKelvey and Scott Mitchell drew the assists.

The Monarchs now find themselves in a must-win situation. The best of five series is weighted heavily in Thornton's favour. With a 2-0 series lead, the defending champs need only to win one of the next three games to

(more on page 10)

Broom and Stone

by Anita Beaver

The following are the league standings as of February 28:

Monday Night Ladies: first D. Neale; second Linda McKnight; third L. Titus.

Tuesday Night Men's: first J.O. Jackson; second Dwight Thomas; third Jerry Pillsworth.

Wednesday Night (OPP, MNR, Hydro): first M. Mintz; second Reg Raby; third R. Wray.

Tuesday Night Mixed: first Godfrey Saunders; second Jerry Pillsworth; third J.O. Jackson.

Friday Night Mixed: first Jim Garbutt; second Ron Reid; third Neil Burk.

Senior Men's: first S. Stewart; second Cec Yearwood; third Jim Burton.

Senior Mixed: first Ed. Pettinger; second H. Martin; third H. Morgan.

Ladies' Intermediate
This competition was held

last week in Haliburton with a Lindsay rink taking top honours. The Minden entry, skipped by Gwen Cox and including vice Sally Bonner, second Louise Dennys and lead Marion Anderson, won their first game against Haliburton. They lost in their second contest against Lindsay.

Diamond Seniors

The Diamond Seniors competition was held in Haliburton last week. Lindsay defeated Fenelon Falls to take top spot. Fenelon has won the last two years. There was no entry from Minden.

The schedule

A ladies bonspiel is planned for this Saturday in Haliburton. Don't forget our Sunday-Funday scheduled for March 13 and the annual club banquet is set for April 23.

puck talk

It has been a busy week for Minden Minor Hockey teams, many of whom are now involved in the playoffs.

Novice

In an exhibition game played Saturday in Minden, the local Monarchs and their counterparts from Bobcaygeon battled to a 2 - 2 tie. Aaron Hie and Oliver Greer were the Minden goal getters with assists going to Kevin Buchanan and Jeremy Phillips on both tallies. The team is still waiting for a playoff schedule to be established.

Atom

In another exhibition contest, the Minden Atoms were blanked by Haliburton 3 - 0. The game was played in Minden February 22. Scoring for Minden were Shawn Perrin with a pair and John Vuksic.

Minden and Orono Atoms are tied one game each in the best of five playoffs. The teams split a pair of games played this past week.

In the opener, Orono defeated Minden 5 - 1. The only Minden goal came off the stick of Darren Sawyer with Robie Ackerblade and Joey Boyle netting the assists. Sawyer's goal was the first of the game but the opposition quickly recovered scoring two in the second period and another three in the final frame while Minden was short-handed.

Travelling to Orono Sunday, the Monarchs managed a 2 - 1 victory over their hosts. Joey Boyle scored both goals for Minden. Randy Bull was cheated out of his shut-out when Orono scored with just 11 seconds remaining in the game. The win was a good team effort.

Pee Wee

The Minden Pee Wees defeated Baysville 7 - 2 in an exhibition game played Friday in Baysville. Scott Russell led the charge for the Minden team scoring three goals and assisting on one other. Trini Elias picked up a pair for Minden while singles went to Kent Taylor, who also assisted on three and Tom Heppleston. Assists were recorded by Sheldon Stevenson, Corey Ackerblade, Sheldon Perry, Derek Allison and Aaron Davis. Jim Riordon guarded the net for the Minden team.

The Pee Wees were eliminated from further competition in the playoffs after they were defeated three games straight by Gravenhurst. The losses came on Saturday and Sunday. Saturday in Gravenhurst, the Minden team went down to a 10 - 2 loss. Scott Russell and Derek Allison scored the goals with Sheldon Perry and Trini Elias assisting on the second tally.

In the Sunday contest, Gravenhurst defeated

Minden 6 - 1 to take the best of five series. Scott Russell scored Minden's only goal with the assist being awarded to Trini Elias.

Bantam

The Minden Bantams squeeze by Huntsville 5 - 4 in an exhibition contest played Saturday in Minden. Five marksmen shared in the Minden scoring with David Schell potting the first effort in the second frame. Darryl Ward assisted. John Wells notched the second goal for Minden with assists going to Darryl Ward and Craig Crowe. The combination worked on a power play.

Andy Miller picked up Minden's third goal with help from John Wells and Darryl Ward. Tom MacLeod connected on a pass from Gord Wood for number four while Andy Miller gave the Monarchs the winning edge with one minute and 42 seconds left to play. John Wells and Tom MacLeod assisted.

Andy Miller led the way for the Bantams as they faced

Huntsville Sunday in that community. He netted five goals in the team's 9 - 6 victory. Also scoring were John Wells with four goals and an assist, Tom MacLeod with five assists and Darryl Ward with two. Andrew Burk was in goal for Minden.

Juveniles

The Minden Juveniles have lost their first two quarter final playoff games against Thornton 3 - 1 and 5 - 3. They are playing in a best of five

series. See separate write-up for details.

The schedule

March 2, 7 p.m. - Minden Atoms travel to Orono.
March 4, 7 p.m. - Bracebridge Bantams in Minden; 9 p.m. - Thornton Juveniles in Minden.

March 5, 3 p.m. - Orono Atoms at Minden (if necessary).

March 6, 3 p.m. - Minden Juveniles in Thornton (if necessary).

Police warning

OPP Commissioner James Erskine has issued a warning about the conditions of ice on lakes and rivers in Ontario. Seven persons have lost their lives in a nine-day period between February 12 and February 20 in different types of accidents.

The deaths resulted from snowmobiles or vehicles breaking through the ice.

Because of the mild weather, the ice has not reached its normal thickness and has deteriorated earlier

than usual. Many rivers now have open stretches of water or only a thin skin of ice.

The tragic loss of life prompted Commissioner Erskine to issue this warning: "No one should go out on frozen rivers or lakes unless they have made certain that local conditions are safe."

Even larger lakes have developed pressure cracks and some cars belonging to ice fishermen have gone through the ice.

Juveniles lose

(from page 9)

advance to the Ontario semi-finals.

So are the Monarch's finished? If they play with a continued apathy and aloofness then they are truly done.

But they have the talent to win. They must apply that talent by infusing determination and desire and lots of old-fashioned hard work. The

better players have got to play with optimum efficiency and provide leadership by example. And the time has come when Minden must play the best workers they have. It's essential to their continued playoff survival.

The Monarchs must also infuse more emotion into their game, as well as on the bench.

A large, boisterous home town crowd Friday night would be a giant lift to Minden's chances.

The Monarchs aren't out yet so let's have a big, supportive crowd on hand Friday night at 9 p.m. at the Minden arena.

If a fourth game is necessary and we believe it will be, it goes at 3 p.m. in the Thornton arena on Sunday, March 6. The bus will leave Minden's municipal offices at 11:45 a.m.

THE FUTURE IS WHERE WE ALL SPEND THE REST OF OUR LIVES.

FUTURE #1

JACK is 10 years old. Although he's been paralyzed from the waist down since birth, his bright conversation and fascination with wheelchair basketball tell you a lot about the future he's fighting for.

That future means that Jack is going to have to work hard to fight his disability, and it's a fight he's going to win. Easter Seals helps, but we can only do that with your help. So please Back a fighter.

FUTURE #2

JASON is 9 years old. He has only one arm, but he's learning to make the arm that was made for him work very well. Right now he wears out 3 bicycles a year. In his future, he wants to work with his hands, and he racks everything he does like a true fighter.

Easter Seals helps, but again we can only do it with your help to back a fighter.

FUTURE #3

CHARMAINE is 9 years old. She's paralyzed from the waist down and has been since birth.

Charmaine has learned to walk with canes, a task she fights for with the spirit of a champion. Ask her what she wants to do when she grows up and she says, "Maybe be a writer."

With your help, Easter Seals can help keep up the fight for this bright girl's future.

Heat loss survey considered

The possibility of having an energy audit of municipal buildings carried out is being considered by Anson, Hindon and Minden township council. The council heard a report on the progress of the project from clerk-administrator Elinor Burke at the Thursday meeting.

The clerk told the meeting

that while the municipality may be able to take advantage of the program, there were some indications it could be cancelled "in April or May". She noted that the relatively small number of structures owned by the township could influence those who decide which areas receive the service. "Because of our

limited size we don't qualify on our own", Burke noted. She suggested the municipality consider applying for the program in conjunction with other municipalities in the area or possibly with all county townships.

She suggested the greater number of buildings being assessed would make it more likely the authorities would accept the application.

The ministry of Municipal Affairs and Housing, which is responsible for the program, has suggested that a Mohawk College summer student could be hired to carry out the assessment. The ministry would fund the project, up to 80% for the wages of the student.

The energy assessment program was brought to the county council's attention last autumn, but the council decided not to take any action at that time. It was suggested that if any municipality was interested it could pursue the matter, individually or in conjunction with other townships.

Slush blamed for accident

Glenn Hamilton, 37, of Peterborough was driving his 1981 Chevrolet on county road one near South Lake Road when his vehicle slid on slush. The car entered the ditch in the February 23 accident, where it struck a rock and sustained damage of \$6,000.

The occurrence was investigated by PC Mike Smith.

Ditched

Kathleen Wyllie, 57, of Dysart Township, lost control of her car in a February 26 accident and drove into the ditch on Highway 35, north of Miners Bay in Lutterworth

township.

Wyllie's 1980 Mercury sustained \$1500 damage when it came to rest against a culvert.

Investigated by PC Bryan Bowers.

Strikes culvert

In a single car accident on highway 121 near North Kashagawigamog Road, Glenn Evens, 18, of Dysart Township drove off the road into the ditch where his vehicle struck a culvert and rolled over. During the February 27 accident, Evans' 1980 Dodge was damaged \$5,000.

Investigated by PC Wim Magee.

One parent families to meet

A meeting to form a one parent family organization for Haliburton County will be held next Tuesday at the Minden Municipal Office.

The meeting is being organized by Steven Zeller of Minden and Pat Irving of Haliburton.

The group is being formed in an effort to assist single parents in coping with the special problems related to raising children when only one parent is in the home. The organization is open to those who are separated, divorced, widowed or never married.

Using the One Parent Families Association of Canada as a model, the group hopes to provide a program of family and adult activities which are both educational and social. According to a brochure distributed by the organization, the aim of the group is to, "encourage families with only one parent

take their rightful place in a society based on traditional two-parent home."

When organized, the group would provide regular meetings for the parents. These meetings could include speakers, panel discussions or other activities of direct interest to single parents.

Social activities, involving the families could also be planned including such things as bowling, hiking, skating, picnics and more. The direction and number of activities the group undertakes is determined by the interest shown by the parents.

"The association will help single parents meet others who have been through the experience, and the discouragement that accompanies the absence of a partner," the association's brochure states. "Members will find people who are sympathetic and understanding and with

whom you can share your experience," it says.

The meeting is scheduled for 8 p.m. in the municipal office. For more information, single parents can contact Steven Zeller at 286-3269 or Pat Irving at 457-2423.

HIGHLAND STREET, HALIBURTON

The Easter Seal Society, ONTARIO

BACK A FIGHTER.
WITH EASTER SEALS.

Minden fire fighters were called to the home of Mrs. Bock on Anson Street Saturday morning. A chimney fire was the cause of the alarm. No damage was reported to the home as a result of the blaze.

Council supports objections

A move by one landowner in Ingoldsby to purchase a portion of shore allowance on Lake Kashagawigamog has raised an objection from a neighbouring property owner who fears his access to the water will be cut off.

Mr. Thorn, and his wife appeared before the council to register their objections. According to Mr. Thorn, an objection from his son, also a property owner in the area, is being registered in the proposed shore allowance closing.

According to the information provided at the council meeting, Mr. Hugh Graham

has requested to purchase certain portions of the shore allowance adjacent to his home. Apparently certain portions of the home now rest on the allowance and he requested the purchase to

assist in clearing the title to the home.

However, in his request, Mr. Graham also sought to purchase a piece of property located to the west of his home. This narrow strip lies between County Road One and the lake.

According to Thorn, this land had been used by him-

self and other property owners on the opposite side of the road as access to the lake. He pointed out that he obtained permission from the municipality and the Ministry of Natural Resources to construct a dock on the property in question a number of years ago.

Thorn said he had no objection to Graham wanting to establish the property lines around his home, but objected to the extension along the shore which would eliminate any access the rear property owners would have to the lake.

The council expressed general support for Thorn's position. They agreed to examine the matter before giving final approval for Graham's application, and indicated the shore allowance land the Thorns had been using to gain access to the lake would remain public property.

Park development studied

The Minden Kinsmen Club has purchased a bridge to be used for gaining access to the planned park by the Minden Arena. The purchase was disclosed at last Thursday's Anson, Hindon and Minden council meeting.

The plan for the bridge seems to be clouded with uncertainties at the moment. It was mentioned at the council meeting that the area for the new park was considered too swampy. Reeve Lyle McKnight said certain areas of the proposed park had been "cut" by tractors, demonstrating the park does have some potential. He admitted the work would have to be done during the dry part of summer to help eliminate the construction problems.

McKnight questioned placing the bridge in the park if subsequent improvements were not going to take place. He said if the bridge resulted in further improvements it would be "a good idea. Then maybe we could do something with the 'infield'".

However, Minden Kins-

man president, John Pentney, said the club has "nothing really planned for the future." The bridge has been purchased, said Pentney, but further development has not been planned "at the present time".

"The only problem we really have with that is the money it would take to do it

Procedural by-law being prepared

A procedural by-law, designed to "cut down a heck of a lot of problems", is close to being presented to Anson, Hindon and Minden council for discussion, it was revealed at the February 24 meeting.

Deputy Reeve Ed Pergolas and councillor Gary Kenney, who reported the progress on the by-law, have been working on the rough draft and may introduce it to the other members "next month" said Pergolas.

Pergolas said the by-law is "more or less" a parliamen-

tary exercise "just tying up the loose ends" with the various committees. One idea the deputy reeve suggested, after saying it "would have to be discussed by council", is to have three major committees and sub-committees reporting to them. He suggested with each committee directly responsible to council, problems can develop.

"I think it's something council should discuss," he added.

Council will "develop the by-law from other by-laws around" in other municipalities, said Pergolas.

COUNTY OF HALIBURTON ROAD RESTRICTIONS

All County Roads in the County of Haliburton shall be posted and enforced for five tonnes per axle as soon as conditions warrant and signs have been erected.

FIRST PUBLIC NOTICE

NOTICE OF FISH STOCKING - BULLER, TEDIOUS AND LITTLE GULL LAKES

The Ministry of Natural Resources, Minden District is proposing to stock Splake into three lakes, Buller (Clear) Lake, Lutterworth Township in 1983; and Little Gull Lake, Lutterworth Township; and Tedious (Long) Lake, Guilford Township in 1984. To create new put and delay take fisheries and provide additional trout angling opportunities for local and resident anglers. Splake is a trout species resulting from the crossing of a female lake trout and male brook trout. This Splake stocking will be used to help determine the success and potential for future Splake stocking in small inland lakes.

The projects are being planned under our ministry's approved class environmental assessment for Fish Stocking in New Waters.

The projects are being planned under our ministry's approved class environmental assessment for Fish Stocking in New Waters.

You are invited to direct any inquiries, comments or concerns regarding the stocking proposal to the District Manager, Minden District by March 18, 1983.

Planning of the project will be continued and final notice issued to those who have responded to this initial notice and those who are directly affected.

If no serious concerns are raised, the finalized proposal will be filed with the Ministry of the Environment for information purposes and the project may be implemented 30 days after final notice has been issued.

DISTRICT MANAGER, Ministry of Natural Resources, MINDEN, Ontario KOM 2K0
Telephone: 705-286-1521

Frances Alton, aged 12, proudly displays the large fish she caught Sunday. "I didn't know who was shaking more," said Frances' father Hugh Alton Jr. The girl hooked the fish, which weighed in at 13lbs, at Bob Lake. The prize fish will be mounted according to the elder Alton.

Pork production up 3.5% in 1983

At a recent meeting of the Pork Producer's in Omeme, swine specialist Jim Dalrymple presented some interesting figures on the 1982 pork year.

The number of Canadian hogs graded was down 2.4%, however, Ontario graded 3.5% more hogs compared to 1981. Quebec graded 5% less hogs. In the U.S., hogs marketed were down by 9%.

At the present time, one out of every four hogs marketed in Canada is exported. The United States and Japan are the major importers of Canadian pork.

Red meat consumption in Canada in 1982 on a per capita basis totalled 160 lbs. This includes 90 lbs. of beef and 64 lbs. of pork. Consumption of pork and beef dropped in 1982 compared to 1981.

At the present time, Ontario is self-sufficient in pork. In fact, 14.5 million

pounds of Ontario pork was exported in 1982. This is 2.5% of Ontario's total production. In comparison, Quebec exports 33% of its total production.

In 1982 the federal hog grading system went from the loin and shoulder measurement system to a one loin measurement program.

In 1982, the average market hog index in Ontario was 102.8. This is an increase from 1981.

The average dressed weight in 1982 was 1 lb. heavier than 1981.

In total, 4.2 million hogs were marketed in Ontario in 1982.

For 1983, a number of factors will influence pork prices in Ontario. These include production levels in the U.S., foot and mouth disease problems in Denmark, the value of the Canadian dollar and consumer demand for pork.

Teachers hear of environmental concerns

- submitted -

In the light of the recent controversy wherein the U.S. government reacted - perhaps over-reacted - to three "environmental consciousness" films by Canada's National Film Board, how appropriate it was that "Environmental Awareness" should have been the theme of study undertaken by teachers and principals of Haliburton County's Elementary Schools on the February 18 Professional Development Day.

Except for four teachers attending a Reading Conference at York University, all gathered at Haliburton Highlands Senior Elementary School for a program that had both theoretical and practical components.

Of the two morning presentations the first was made by Clark Birchard - a native of the Lindsay area who has been a classroom teacher, principal and Teachers College master. In the early seventies Clark chose to dedicate the rest of his career to performing and promoting environmental studies within the education system.

His presentation included a slide program through which he outlined the activities at the Outdoor Education Centre of the Grey/Bruce Board of Education at Wiarton of which he is supervisor. Here, students are involved in everything from stream studies to pioneer role playing - where they end up eating muffins they've baked from grain they've ground by hand. It is a "hands-on" situation where one becomes involved in and part of the environment being studied.

This morning presentation was brought to life in Mr. Birchard's afternoon workshop when he took groups outdoors to a small wooded area and involved them in an interesting outdoor education experience - a practical

demonstration on what he had been talking about.

For the second morning session, Judy Mittermeyer came to us from the Ministry of Environment. Judy is the assistant - co-ordinator of acid rain precipitation study in Ontario. Offering an excellent film on acid rain, she took us further into the subject than many of us have been. Source and effect of the problem as well as possible solutions - and the difficulties in effecting them - were outlined. Some information, of course, was not new, but some was - and some of that was startling. From the question and discussion period following, it seemed apparent that overcoming the problem - controlling the source - is technically possible but expensive. Because it is only partly "made in Canada" the difficulty will ultimately find resolution only through political means. It is a problem about which the public should not be

apathetic.

Individuals were able to choose two of three workshops in the afternoon. The one led by Clark Birchard has been discussed above.

Bob Briehl, a classroom teacher and primary methods specialist from Halton County discussed techniques and opportunities for

promoting environmental awareness in the early (K to 3) grades through music and role playing as well as actual outdoor experiences.

Ted Reid, of Archie Stouffer Elementary School, presented a workshop entitled "Characteristics of a Dying Civilization". In developing his topic, Ted was emphasizing two points.

P - 1 - The environment is in trouble.

P - 2 - We can help.

Main problem areas were defined. Needs, aims and obstacles were discussed - this time on a global scale. This presentation was backed by research reports, charts and a booklet for further study.

Concern for the environment, acid rain, pollution are

new ideas neither to the public nor the teachers. The day's study was important because it sharpened our perception of the subject and drove home to some that the problem is not just ours, but that of the children we are raising and teaching. They will need to be equipped to handle it.

by Bert Harrison

We have a service in the chapel, each Sunday night. Rev. Burgess tells us what to do to keep us living right. Monday morning Doris wasn't here, she had taken her son to hospital with trouble in his ear. But Linda came to put us through our paces, but she wouldn't do anything that would disgrace us.

We watched three movies Monday night, "May's Miracle", which was simply grand, "Just in the nick of time," and "Beaver man".

Tuesday morning Rev. Brewster of Lochlin Pentecostal Church a real dynamic speaker, and we are sorry to relate, he is leaving shortly for the United States. Lola Prentice has a new great grand daughter named Brittany Rose weighing almost eleven lbs. Can anyone beat this do you suppose?

Back from hospital is Jessie Walters, Ken Fielding has a new grandson. Arnie had a fall that really hurt her back and neck and caused a whiplash, we would really miss her for she does out our cash.

The Gals from Eagle Lake

came down to Hyland Crest. They brought a lot of goodies and were our welcome guests. There was a lovely birthday cake all decked out with cherries for all who had a birthday in the month of February. At least that's what they told me, I wasn't there to see, for I've been having trouble with water on my knee. I'm sure they had a lot of fun, they have just what it takes, and we will always have fond memories of the gals from Eagle Lake.

I'd like to thank all the different ladies groups that sent me cards on my birthday, especially Millie Wood who looks after all the birthday cards here at Hyland Crest. She does a real good job and is surely blessed. I had a birthday last week and I was 89. We had some of our family in and all was going fine. Then I had a funny feeling but thought that I could chuck it and have a few more years before I kick the bucket. Then a voice from higher up said, "Don't be feeling sore, don't you know you're far too old to cut the mustard any MORE?" Cut your activities in half

somewhere along the line, you will be up around again in a very short time.

Mrs. Coburn & Mrs. Barron had a most interesting program, Short & Sweet. Those who missed it missed a treat. I wanted to so badly attend the formal dinner, but I was out of luck, didn't even get a glass of good old baby duck. It was a lovely dinner, the entertainment grand, we knew it would be good if Shirley Colliss had a hand.

BEWARE: When sitting on a sofa with a young man by your side, beware of false impressions - his moustache may be dyed.

College grant increases

Increased operating grants for community colleges are an indication of the significant role college training is playing today, says Sir Sandford Fleming President, Charles Pascal. Responding to a recent announcement of a 9.47 per cent increase in college operating grants, Dr. Pascal is "delighted" by the special recognition of colleges.

"In view of the economic environment, and percentage increases to other sectors, I consider this increase to reflect the government's recognition of our efforts to provide people with new opportunities during these difficult times. I'm particularly proud of our college as an

efficient, productive and adaptive institution," he said.

According to Pascal, Sir Sandford Fleming College's share of the global funds will be higher than the average allotment. The grant is distributed to individual colleges through a formula consisting of several factors including student activity levels. The exact figure for Sir Sandford

Fleming College will be known in a few weeks.

Through federal and provincial government support, additional funds will be made available to the colleges. At Sir Sandford Fleming, this money will be used for advances in new technology and for capital expenditures.

NOTICE

IN THE MATTER OF the Municipal Act; and
IN THE MATTER OF a proposed By-law of the Corporation of the Townships of Anson, Hindon & Minden to stop up, close and convey to the adjoining landowner part of the 66 foot 'unopened' Original Shoreline (Marine) Allowance for Road around the shoreline perimeter of Horseshoe Lake in front of Lot 12, Concession V in the Township of Minden.

NOTICE IS HEREBY GIVEN pursuant to Section 301(1) of the Municipal Act R.S.O. 1980, as amended, that the Council of the Corporation of the Townships of Anson, Hindon & Minden at its regular meeting to be held in the Municipal Council Chambers, Milne Street, Minden on THURSDAY, MARCH 24th, 1983 proposed to consider and, if deemed advisable to pass a By-law to stop up, close and convey the above-noted portion or road allowance more particularly described as follows:-

All that part adjoining the original shoreline allowance for road along the shore of Horseshoe Lake in front of Lot 12, Concession V in the Township of Minden in the County of Haliburton, designated as Part 2 on a draft plan of survey prepared by Paul Wilson, O.L.S. and dated January 12, 1983.

AND FURTHER TAKE NOTICE that before passing said by-law at the meeting to be held at the time and place mentioned, the Council shall then and there hear in person or by his Counsel, Solicitor or Agent any person who claims that his or her land will be prejudicially affected by the said By-law and who applies to be heard.

DATED AT MINDEN this 2nd day of March 1983.

Elinor Burke, A.M.C.T.
Clerk-Treasurer
Townships of Anson, Hindon
& Minden,
Box 98, Minden, Ontario
KOM 2K0
(705) 286-1260

The draft plan of survey referred to herein is available for perusal at the Municipal Offices during normal office hours.

CORPORATION OF THE TOWNSHIP OF STANHOPE

PUBLIC NOTICE

TAKE NOTICE that the Council of the Municipal Corporation of the Township of Stanhope proposes to enact a By-Law to stop up, close and convey that part of the original allowance for road set out and described as follows:

FIRSTLY: All and Singular that certain parcel or tract of land and premises situate, lying and being in the Township of Stanhope in the County of Haliburton and being composed of part of the Original Sixty-Six Foot Shore Road Allowance adjoining Halls Lake lying in front of part of Lot 10, Concession VII and being more particularly described as Part I on a Plan deposited in the Registry Office for the Registry Division of the County of Haliburton as Plan 19R 2783. A COPY OF THE PLAN OF SURVEY as noted may be viewed at the Township of Stanhope Municipal Office during normal working hours.

The proposed By-Law will come before the said council for consideration at its regular meeting at the Municipal Office, in the Township of Stanhope on the 6th day of April, 1983 at the hour of 11 o'clock a.m., and at that time, the Council will hear in person or by his counsel, solicitor or agent, any person who claims that his land will be prejudicially affected and who applies to be heard.

DATED: February 21, 1983.

Gerald C. Bain, A.M.C.T.
Clerk of the Corporation of the
Township of Stanhope,
R.R. 1, Haliburton, Ont.

Carol and Reg, Philip and Karen Leaman, all of Kewick visited Saturday with the Milton Sears.

Beginning Thursday, March 3, the Agnes Jamieson Gallery at the Minden Cultural Centre, will feature the art, prints and sculpture of local artist, Marta Scythes. The opening will begin at 8 p.m., and refreshments will be served. The show will run until March 26th and the Gallery will be open Monday to Saturday from 3 - 5 p.m. This promises to be a fine exhibit.

Congratulations and best wishes to our friends Flo and Bill O'Brien who celebrated their 43rd wedding anniversary on Tuesday, February 22. We wish you many, many more happy years together.

The pen is mightier than the sword. The written page has the power to transport one into realms never seen and experiences never tasted. Yes, television pictures, but the mind has the ability to show us dreams that cannot be captured. The mind can be an infinity in imagination created by words on a simple page.

The sky wept tears of loneliness, then dried her eyes and smiled at me.

Our very best wishes to Mr. and Mrs. Willis Harrison of West Guilford who moved into their new home in Haliburton last Saturday.

On Friday, Sonya Holliday-Rhodes and I enjoyed a delicious luncheon at Wig-A-Mog Inn. Art Ward, proprietor, was a most congenial and hospitable host. We enjoyed our lunch immensely. The decor, scenery and the menu were all conducive to a very pleasant afternoon.

Last weekend I attended an extremely fascinating seminar at Sir Sanford Fleming College in Haliburton, conducted by June Mewhort on the subject of Parapsychology - It was most interesting and I know the other members of the class concur. I am sorry the class was only a two day course. We discussed ESP, Mental Telepathy, Journey out of the Body, Reincarnation and lastly, the Mystery of Atlantis. Absolutely engrossing! given by a teacher who certainly knows her subject. I look forward to another seminar in the near future.

On Sunday, we celebrated my father's eighty-eighth birthday with a surprise party at our home. Some very close friends helped us celebrate and the party was catered by Elizabeth from the Corner Store. The food she prepared was delicious and a fine time was had by all. If you need a

party catered, by all means contact Elizabeth for a superb job. We all wish Dad many, many more happy birthdays.

I am sorry to report the death of Mr. John Hampson of Pine Springs. Our deepest sympathy to the members of his family.

Don't forget the delicious Easter Eggs that the women of St. Paul's are featuring. These confections sell for \$1.25 and will certainly be a hit with children and adults alike. I bought 10 of them for friends.

On Saturday, March 19 I will be a guest on CFMX - FM on the matinee broadcast, and plan to attend the concert at St. George's United Church in Peterborough, featuring the Montreal born concert pianist Richard Gresk who will present an all Chopin - Rachmaninoff program. Tickets for the concert are \$7.00 for preferred seats, seats at \$6.00 and for students, \$4.00.

I am in charge of the tickets for this concert, so anyone interested may contact me at 286-2539.

Please keep in mind the demonstration I plan to give at St. Paul's Parish for the ACW on March 8. It will be in acrylics and the painting will be raffled off at the end of the

evening. Proceeds will go to ACW.

The Thrift Shop at St. Paul's will be open this Friday, but then will be closed until the first of May for renovations. If you are thinking of something specific in clothing at a marvelous price, do come and see what the Thrift Shop has to offer.

Mark your calendar for the Women's Breakfast at St. Paul's on March 20. It will begin with a service of Holy Communion at 8:00 a.m., after which the breakfast will be served by the gentlemen of the Parish.

The winners of the Mini-Card Party at St. Paul's last week are as follows - Cribbage - Dianne Stevens, Euchre, lone hands (on a cut) Shirley Elcome and Irene Houghton.

Congratulations and all best wishes to Mr. and Mrs. Elmer Harrison of Maple Lake who celebrated their wedding anniversary this past week.

Mr. and Mrs. Jim Harrison of Maple Lake, motored to Peterborough last week to attend the Floor Hockey game. They were accompanied by their daughter Wanita, who played, and I am happy to report the girls won.

Congratulations to Mr. and Mrs. Willis Walker of Haliburton who are sporting a lovely new car.

Fear thou not for I am with thee: be not dismayed; for I am thy God: I will strengthen thee; yea, I will help thee; hold thee with the right hand of my righteousness.

Say Swiftly: Seven sloppy sapsuckers sloppily sipping succulent sap from a sugar maple sapling.

Q: Why did the orange stop in the middle of the road?
A: It ran out of juice.

When is a piece of wood like a King?
A: When it is a ruler.

Q: What bow can never be

tied?

A: A rainbow.

Q: How do you make a button sad?

A: Depress it.

Q: What's green and happy?

A: A Glad garbage bag.

Bye for now. Take it easy. God bless till next time.

THE HOSPITALITY TRAINING CENTRE ANNOUNCES POSTER/ESSAY CONTEST

If you are artistically inclined or you have a flair for writing, draw a poster or write a short essay that best describes what tourism and hospitality means to our County.

All entries must be in by March 18, 1983 and they will remain the property of the Centre.

Dinner for 2 persons, compliments of Sir Sam's Inn.

HOSPITALITY TRAINING CENTRE
(above Red & White, Haliburton village)
457-2313

TO THE RESIDENTS OF THE TOWNSHIPS OF ANSON, HINDON AND MINDEN LUTTERWORTH STANHOPE

A public information meeting will be held at the Minden Community Centre

**TUESDAY, MARCH 8
7:30 P.M.**

Residents interested now, or at a future date, in home ownership or rental housing are urged to attend.

PROGRAM (1)

Rural and Native Ownership Housing program geared for modest income householders in designated communities of 2500 or less

PROGRAM (2)

Rental Housing program for senior citizens and families - rent geared to income and market value rentals.

The intention of this meeting is to ask support for this program to compile a list of applicants for use now and in the future.

Ministry officials will be attending to answer questions.

For further information contact your municipal office.

This meeting is co-ordinated by the Staunworth Housing Authority.

CARD OF THANKS

The Residents and staff of Hyland Crest wish to thank everyone who donated to our TV fund. Because of your kindness our objective has been met and our residents are now enjoying clear TV viewing. Your thoughtfulness is greatly appreciated. 3A

I would like to thank my family, relatives, neighbours and friends, for all their visits, cards, gifts, prayers and phone calls when I was in hospital and since I came home. Special thanks to Dr. Holliday-Rhodes, Dr. Watson, nurses at Minden Red Cross Hospital and on the surgical floor of the Ross Memorial Hospital for their care. God bless you all.
